## TECHNICAL SHEET

COD. EAN 8056095750094

### FACE, NECK AND DÉCOLLETÉ CREAM LIPOREPAIR UP GRAVITY SNAIL SECRETION FILTRATE 70%

#### Description:

Face, neck, décolleté cream with snail secretion filtrate and active water snail secretion (enzyme extract of snail secretion filtrate) for a natural anti-aging and nourishing moisturizing effect on the skin, also conveyed by latest-generation Liposomes and Tetrapeptide-2, powerful active ingredients they stimulate the production of Hyaluronic Acid, Collagen and Elastin to make the skin appear compact, firm and wonderfully elastic. With a silky texture, a cream rich in antipollution and illuminating ingredients that help strengthen the natural defense system against pollutants and blue light, rebalancing active ingredients of the skin microbiome, complex upgravity for a more elastic and compact skin, low molecular weight hyaluronic acid for anti-aging action, organic shea butter with nourishing action, sesame oil, organic almond and jojoba oil, moisturizing, softening and toning for the skin, plus organic oat glycerine extract and energizing organic goji extract and tissue stimulant.

Certified product: AIAB.

#### Characterizing Functional Substances:

##### Active Water Snail Secretion :

Resulting from the enzymatic hydrolysis of snail secretion filtrate substrates in aqueous environment. Active technology of the latest generation, this technology is based on the use of a series of enzymatic-sequential biotechnological processes that allow the substrates to be broken down specifically through targeted molecular cuts. The result is an increase in antioxidant power and an improvement in the absorption of the active substances in the derms.

##### Complex UP-Gravity:

Years of exposure to environmental agents, personal habits and the physiological cellular aging alter the skin which loses elasticity and compactness. Gravity plays a special role, as a constant force that pushes the skin downward, forcing it to remain firm and elastic to prevent it from collapsing. Collagen and elastin fibers are essential components of the extracellular matrix (ECM) which together with the intracellular molecules keep the skin elastic but compact. By improving the existing elements of the skin, the loss of elasticity and compactness of the skin is reduced.

##### Antipollution Algae Complex:

Extracted from the *Undaria pinnatifida* algae that helps strengthen the natural defense system against daily damage caused by reactive oxygen species and environments that are too polluted, characterized by high amounts of exhaust gas, cigarette smoke or other heavy metals such as lead and cadmium. Moreover, it is an effective illuminant for the skin.

##### Skin Microbiome Rebalancing Complex:

It is a combination of several components (brown algae, green algae, sea water) that provide a variety of nutrients to support biodiversity and homeostasis of the skin microbiome. Thanks to its particular varied and balanced composition it helps the skin flora to reduce redness and imperfections.

##### Snail Secretion Filtrate Liposomes:

They are an efficient, completely natural delivery system containing Snail secretion filtrate, used to protect and improve the effectiveness of cosmetic ingredients. Liposomes are spherical vesicles consisting of a double phospholipid layer, which can be used to facilitate penetration into the cell of water-soluble active ingredients contained in the liposome. The main ingredient of Natural Liposomes is phosphatidylcholine, the main

constituent of biological membranes and this optimizes the delivery effect of our liposomes facilitating the fusion process between liposome and cell membrane, in order to release the active inside the cell.

### **Snail Secretion Filtrate:**

The snail *Helix Aspersa*, produces a secretion (the mucopolisaccaride of the snail, commonly called "snail secretion") composed of active substances such as allantoin, glycolic acid, elastin, collagen and some vitamins and proteins that are very useful for the skin, in particular hydrate nourish and stimulate the formation of collagen, making the skin radiant.

### **Ingredients:**

Snail secretion filtrate extract, Coco-caprylate, Glycerin, Cetearyl alcohol, Propanediol, Dicaprylyl carbonate, Prunus amygdalus dulcis oil (\*), Caprylic/capric triglyceride, Cetearyl glucoside, Aqua, Undaria pinnatifida extract, Snail secretion filtrate, Citric acid, Simmondsia chinensis oil (\*), Butyrospermum parkii butter (\*), Sesamum indicum oil, Silybum marianum ethyl ester, Hydrolyzed verbascum thapsus flower, Lycium barbarum fruit extract (\*), Laminaria digitata extract, Chlorella vulgaris extract, Avena sativa kernel extract (\*), Hydrolyzed hyaluronic acid, Acetyl tetrapeptide-2, Maris aqua, Mica, Allantoin, Lecithin, Tocopherol, Ascorbyl palmitate, Xanthan gum, Parfum, Sodium hydroxide, Benzyl alcohol, Stearic acid, Tetrasodium glutamate diacetate, Sodium benzoate, Ethylhexylglycerin, Potassium sorbate, CI 77491, Lauroyl lysine, Phenethyl alcohol, Polyhydroxystearic acid, Saccharide isomerate, Caprylyl glycol, Sorbitol, Phenoxyethanol.

(\*) ingredients from organic farming

### **How to use:**

Apply to face, neck and décolleté massaging with circular movements until completely absorbed.

### **Indication:**

Cosmetic product for external use

PAO: 6M

Some slight variation in color does not represent alteration of the product but is an indication of its naturalness.

Keep out of reach of children.

Avoid contact with eyes.
